Creating memorable accessories

Robin Getsug Taple has founded **Momento: Adornment for the Home.**

Her collection of fine art accessories for the home combines photography, images, art, poetry and prose — wrapped within elegant fabrics, beads, buttons, textures and trimmings.

Debuting at the American Society of Interior Designers' Spring 2004 Showcase Home, the Momento Collection includes several signature lines, including "Home for the Holidays 2004," which includes unique vintage-style Hanuka pieces. Also, Getsug Taple designs custom pieces for the home, which include treasured photos and memories of simchas.

Pieces from the Momento Collection will be showcased at the upcoming NCJW Palette of the heART wine tasting and art event on Nov. 20.
